### The Locations

1. This burial ground in the Southeast corner of the Rural Woodstock Public Library District is older than the library and purported to be haunted.
2. Located near Ridgefield, just outside the Rural Woodstock Public Library District, this home improvement company is the same age as the library – they started in 1891 just like us!
3. Every summer cows, pigs, chickens and more take “center stage” at this Woodstock location.
4. Millions of cucumbers have been processed at this company, which moved to Woodstock 40 years ago, in 1976.
5. An iconic Woodstock landmark for more than 125 years, this building was the first home of the Woodstock Public Library.
