

Park in the Square Stone Façade Work Begins Wednesday, August 17th

During a January, 2016 Strategic Planning Workshop, the City Council decided to move forward with the installation of stone veneer on the concrete wall surrounding the Park in the Square. Since that meeting, a contract has been awarded to Jimmy'Z Masonry Corporation, and the Department of Public Works hosted a preconstruction meeting on Thursday, August 11, 2016 to discuss the details of project.

On Wednesday, August 17th, Jimmy'Z Masonry will begin work on the west half of the Park in the Square wall on Cass Street. Interior parking spaces along the wall will be blocked off where the contractor is working. This is necessary to not only accommodate the workers, but also to protect the work zone. Affected parking spaces will re-open at the conclusion of each work day. This improvement will also include the installation of parking curbs to prevent vehicles from making contact with the new cobblestone face.

Please contact the Department of Public Works at pwdept@woodstockil.gov or (815) 338-6118 with any questions or concerns.
